OVERTURE

2006. Since this year of inception, Sabari Enterprises has been persistently an integral part of distinguished brands. Based in Hyderabad, Sabari Enterprises has posed to be a market leader, playing an important role in extending its operations across the region.

With the passage of time and a proven track record, Sabari Enterprises has emerged to be one of the largest wire and cables distributors and dealers in the entire southern India.

With their incessant endeavors to escalate customer satisfaction, Sabari Enterprises has expanded the horizon of services which primarily includes: designing a targeted stocking policy, offer commercially competitive prices, upgrade reliability, and remain consistently quality conscious, and extend timely delivery too.

Sabari Enterprises is always inspired by their precious customers whose growth signifies the growth of the company. Hence, with the clear axiom 'customer first', the company upholds customer satisfaction as the crux of their entire operations.

Over the yesteryears, with incessant dedication, sincerity, and integrity, the company has gained colossal customer-trust that comprises of premium clientele hailing from varied sectors and industries. For instance: domestic, builders, contractors, realtors, industrial, retailers, corporate corridors, and hospitality segments.

Sabari Enterprises, Hyderabad possesses an enormous stocking facility in their exclusive godown with a sprawling space of over 25000 square feet maintaining a wide array of 1,500 products making an inventory of a whopping 15 crores to address key market determinants!

Managing Director's MESSAGE

We've been a distributor-dealer leader for 40 years in Bengaluru and 11 years in Hyderabad. Today, we are one of the largest wire and cable dealers in this part of the nation. We are working together as one company to provide products and technologies for building, maintaining and advancing the power and information infrastructures that connect our world.

As we work to meet our customers' needs now, we are investing in research and development to provide solutions that will help shape the future. A culture that is truly the stepping stone to where we are today and will remain in our journey to be an electrical products conglomerate.

With this ideology, we envisage to create value for our customers, partners and employees. Hi-end quality and customer-trust are our core mantra. We believe in excellence: from products to people that has brought growth to the company, thus far.

CABLES JOINTING KITS

To maintain the continuity of cable, especially for long length, the cable jointing systems emerged. The cable jointing system works properly in underground cable even with water stagnation in the ground. For many years now, heat shrink cables and cold shrink cables have widely been used in the cable applications like splicing, termination and in offering seals on MV and LV cables.

- Heat Shrink: End Termination and Straight through Kits
- Cold Shrink: End Termination and Straight through Kits
- LT and HT Cable Jointing Kits: up to 33KV
- Indoor and Outdoor Kits

DEALERS OF:

LUGS AND GLANDS

Cable Lugs are devices used for connecting cables to electrical appliances, other cables, surfaces or mechanisms. The clamps that connect wires to an automotive battery are a common example of a cable lug. Cable Glands are mechanical cable entry devices that can be used on all types of electrical power, control, instrumentation, data and telecommunications cables. They are also used as a sealing and termination device to ensure that the characteristics of the enclosure which the cable enters can be maintained adequately.

- All Types of Copper Lugs
- All Types of Aluminium Lugs
- Single Compression Glands
- Double Compression Water-Proof Glands
- Double Compression Flame-Proof Glands

DEALERS OF:

CONDUITS

An electrical system is reliable equally as its conductors and conduit systems and fittings. They are highly durability, high impact resistance, fire retardant, resistance to fungal attacks, thermal resistant from -5°C to +60°C. The fittings have brass insertions with smooth finish from inside to make the pulling of wires easy. With an ISO 9001: 2008 certification, Polycab manufactures conduits and fittings complying with Indian Standards of IS: 9537 P3 and IS: 3419, respectively, arriving in 3 varied colors: black, ivory and grey. In fact, it is Polycab alone that offers the ivory color.

These conduits and fittings offer unsurpassed protection for wire and cables in the most demanding applications of power generation, robotics, food processing, refining, waste water treatment, rail rolling stock and trackside, infrastructure, offshore drilling, mining, wind turbines, solar panels, off-road vehicles and much more.

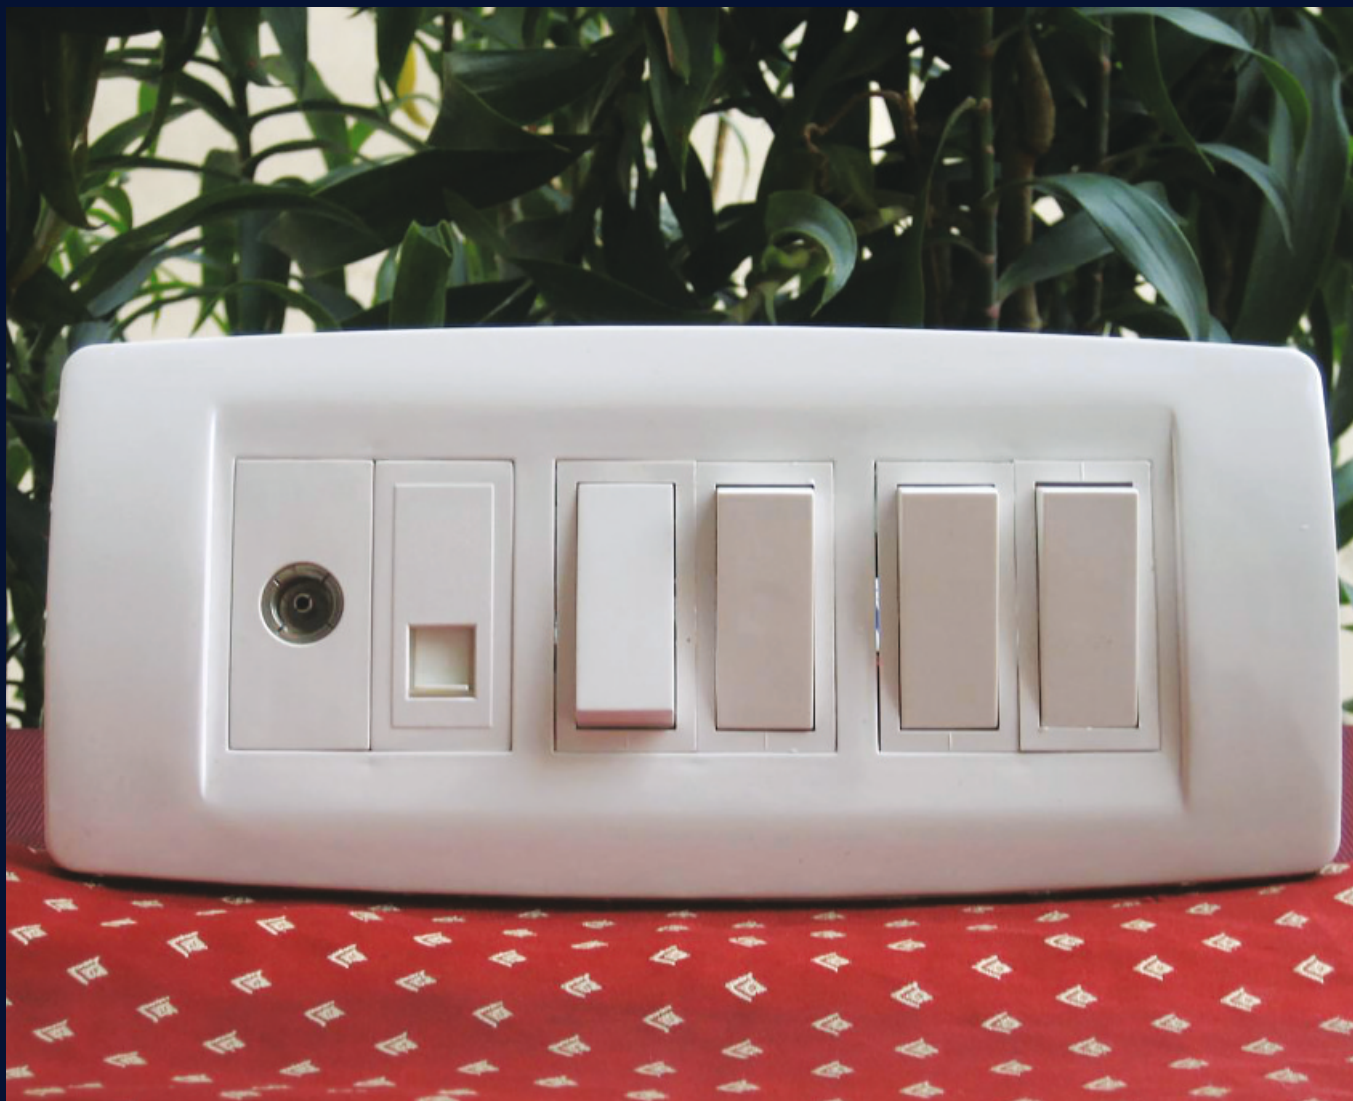

- uPVC Conduits
- FRLS | LHSFT Conduits
- Conduit Fittings
- Bend | Collar | Elbow

DEALERS OF:

MODULAR SWITCHES

Enhancing the beauty on the walls, a smorgasbord of colors, textures and finishes come to blend virtually with any home or office decor.

- Switches
- Sockets | Modular Plates
- Telephone / TV / Data Outlets
- Fan Regulators and Dimmers
- Metal Box | Plastic Box

DEALERS OF:

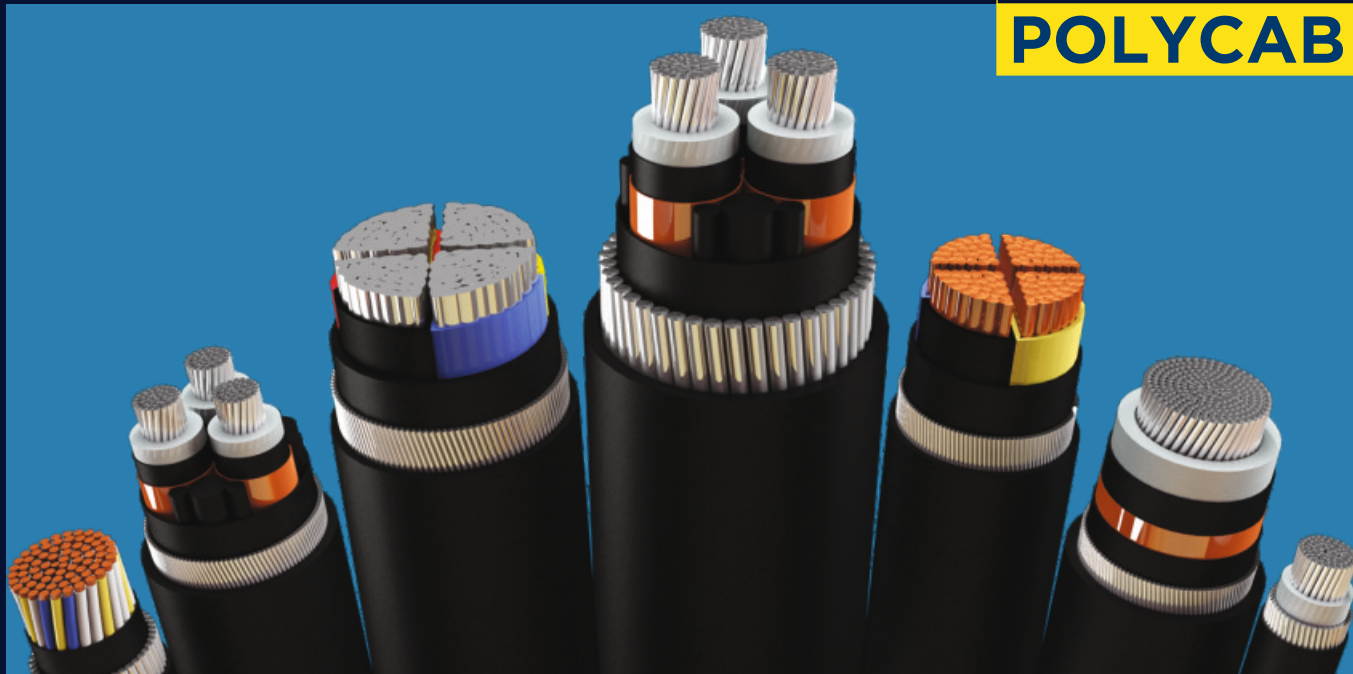

Livia
Opale
Zencelo
Neo (Hotel Series)

WIRES AND CABLES

When installing cables inside walls, ceilings, elevator shafts, or underground, always make sure the cable you are purchasing has the proper rating. We do our best to list all applicable ratings for our cables and wires.
